GENERAL INDEX, VOLUME 89, NO. 1, 2, AND 3 (1951)

ACTH. The effect of pituitary adrenocorticotrophic hormone on experimental tetanus in mice, 224
Aerobacter, Studies on the mechanism of antagonism by *Aerobacter* strains, 277
Agglutinins. The in vitro agglutination of erythrocyte-free avian plasmodia, 31
for *Escherichia coli* in serum and in fecal extracts from human enteritides and from hyperimmunized and epinephrine-stimulated rabbits, 35
Coproagglutinins in ulcerative colitis, 47
The effects of brucellergen skin test on brucella agglutinin titer in patients with brucellosis and other diseases, 56
Hemagglutinin-inhibiting property of duck plasma exhibited in agglutination reactions involving duck erythrocytes and plasma of chicks recovered from lophurae malaria, 95
Arthritis, Effect of cortisone acetate on an experimental purulent infectious arthritis of white mice, 26
Aspicularis tetraptera, Studies of the effect of antibiotics on infections with the mouse pin-worm, *Aspicularis tetraptera*.
I. The action of terramycin hydrochloride, 190

Barksdale, W. L.: Agglutinins for *Escherichia coli* in serum and in fecal extracts from human enteritides and from hyperimmunized and epinephrine-stimulated rabbits, 35
Coproagglutinins in ulcerative colitis, 47
Barnes, LaVerne A.: Field trial of *Shigella flexneri III* vaccine.
VII. Studies on asymptomatic carriers of the organism, 199
Beal, Grace A.: Growth and manometric studies on carbohydrate utilization of *Brucella*, 266
Becker, Elery R.: The distribution of sparing and protective factors in plasma fractions of ducks recovered from lophurae malaria, 16
Hemagglutinin-inhibiting property of duck plasma exhibited in agglutination reactions involving duck erythrocytes and plasma of chicks recovered from lophurae malaria, 95

Berman, David T.: The pathogenicity of mucoid variants of brucellae for guinea pigs, 214
Bergdoll, M. S.: Staphylococcal enterotoxin: production methods, 180
Bowling, Robert E.: Studies on the mechanism of antagonism by *Aerobacter* strains, 277
Bozeman, F. Marilyn: Some physiological properties of nonpathogenic mycobacteria, 185
Braude, Abraham I.: Studies on the pathology and pathogenesis of experimental brucellosis.
I. A comparison of the pathogenicity of *Brucella abortus*, *Brucella melitensis*, and *Brucella suis* for guinea pigs, 76
II. The formation of the hepatic granuloma and its evolution, 87
III. Investigations pertaining to the function of the spleen, 272
Braun, Werner: Studies on the in vivo fate of brucella variants with different virulence, 286
Brodine, Charles E.: The distribution of sparing and protective factors in plasma fractions of ducks recovered from lophurae malaria, 16
Brown, Arthur: The action of some water-soluble carcinogens on bacteria, 59
Brucella, Studies in the pathology and pathogenesis of experimental brucellosis.
I. A comparison of the pathogenicity of *Brucella abortus*, *Brucella melitensis*, and *Brucella suis* for guinea pigs, 76
The pathogenicity of mucoid variants of brucellae for guinea pigs, 214
The recovery of L forms of *Brucella* and their relation to brucella phage, 226
Growth and manometric studies on carbohydrate utilization of *Brucella*, 266
Studies on the in vivo fate of brucella variants with different virulence, 286
Brucellosis, The effects of brucellergen skin test on brucella agglutinin titer in patients with brucellosis and other diseases, 56
Studies in the pathology and pathogenesis of experimental brucellosis.
I. A comparison of the pathogenicity of *Brucella abortus*, *Brucella melitensis*, and *Brucella suis* for guinea pigs, 76
II. The formation of the hepatic granuloma and its evolution, 87
III. Investigations pertaining to the function of the spleen, 272
Burrows, William: Kinetic aspects of hemolysis by the α-toxin of *Clostridium welchii* and its inhibition by anti-toxin, 233
Carcinogens, The action of some water-soluble carcinogens on bacteria, 59
Clostridium welchii, Kinetic aspects of hemolysis by the α-toxin of, and its inhibition by anti-toxin, 233
Coffin, Grange S.: Active immunization of birds against malaria, 1
Passive immunization of birds against malaria, 8
Colitis, Coproagglutinins in ulcerative colitis, 47
Coproagglutinins, in ulcerative colitis, 47
Cortisone, Effect of cortisone acetate on an experimental purulent infectious arthritis of white mice, 26
Ineffectiveness of cortisone therapy in mice infected with Japanese B encephalitis and the adverse effect of high doses, 103
Crumb, Cretyl: Antigenic differences in two tuberculin protein fractions, 252

Dack, G. M.: Staphylococcal enterotoxin: production methods, 180
Diphtheria, Prophylaxis of experimental diphtheria with penicillin, 193
Doetsch, Raymond N.: Some physiological properties of nonpathogenic mycobacteria, 185
Dufour, Emma H.: Antigenic differences in two tuberculin protein fractions, 252
Dysentery, Studies in bacillary dysentery.
III. Mobilization of specific antibody into the intestine of the rabbit as a response to homologous living dysentery bacilli, 281

Eisele, C. Wesley: Experimental human salmonellosis.
III. Pathogenicity of strains of *Salmonella newport*, *Salmonella derby*, and *Salmonella bareilly* obtained from spray-dried whole egg, 209
IV. Pathogenicity of strains of *Salmonella pullorum* obtained from spray-dried whole egg, 259
Encephalitis, Ineffectiveness of cortisone therapy in mice infected with Japanese B encephalitis and the adverse effect of high doses, 103
Enteritides, Agglutinins for *Escherichia coli* in serum and in fecal extracts from human enteritides and from hyperimmunized and epinephrine-stimulated rabbits, 35
Enterotoxin, Staphylococcal enterotoxin: production methods, 180
Epinephrine, Agglutinins for *Escherichia coli* in serum and in fecal extracts from human enteritides and from hyperimmunized and epinephrine-stimulated rabbits, 35
Escherichia coli, Agglutinins for, in serums and in fecal extracts from human enteritides and from hyperimmunized and epinephrine-stimulated rabbits, 35

Faber, John E., Jr.: Some physiological properties of nonpathogenic mycobacteria, 185
Frankel, Jerome J.: Antagonism by *Gaffkya tetragena* strains, 52
Friedlander, Harold: Effect of cortisone acetate on an experimental purulent infectious arthritis of white mice, 26

Gaffkya tetragena, Antagonism by *Gaffkya tetragena* strains, 52
Ghoda, Akira: Agglutinins for *Escherichia coli* in serum and in fecal extracts from human enteritides and from hyperimmunized and epinephrine-stimulated rabbits, 35
Coproagglutinins in ulcerative colitis, 47
Globulin, Artificial radioactive antigens.
I. Preparation and evaluation of S^{35}-sulfanilic acid-azo-bovine-γ-globulin, 109
II. The metabolism of S^{35}-sulfanilic acid-azo-bovine-γ-globulin in normal and immune mice, 117
González, Luis M.: Studies in bacillary dysentery.
III. Mobilization of specific antibody into the intestine of the rabbit as a response to homologous living dysentery bacilli, 281
Gorelick, Arthur N.: Studies on the in vivo fate of brucella variants with different virulence, 286
Granulosis, Studies in the pathology and pathogenesis of experimental brucellosis.
II. The formation of the hepatic granuloma and its evolution, 87
A granulosis of the omnivorous looper, *Sabulodes* caberata Guenée, 173
Green, Stanley: The effect of penicillin on typhoid antibody production, 169

Hemolysins, The role of the spleen in hemolysin production in rabbits receiving multiple antigen injections, 143
Kinetic aspects of hemolysis by the α-toxin of *Clostridium welchii* and its inhibition by anti-toxin, 233
Hemophilus pertussis, Influence of sex of mice on histamine sensitivity and protection against, 296
Comparison of the histamine-sensitizing property with the protective activity of pertussis vaccines for mice, 300
Histamine, Influence of sex of mice on histamine sensitivity and protection against *Hemophilus pertussis*, 296
Comparison of the histamine-sensitizing property with the protective activity of pertussis vaccines for mice, 300
Hughes, Kenneth M.: A granulosis of the omnivorous looper, *Sabulodes caberata* Guenée, 173
Hurlbut, Herbert S.: Ineffectiveness of cortisone therapy in

mice infected with Japanese B encephalitis and the adverse effect of high doses, 103

Ingraham, Joseph S.: Artificial radioactive antigens.
I. Preparation and evaluation of S^{35}-sulfanilic acid-azo-bovine-γ-globulin, 109
II. The metabolism of S^{35}-sulfanilic, acid-azo-bovine-γ-globulin in normal and immune mice, 117

Jones, Lois M.: The pathogenicity of mucoid variants of brucellae for guinea pigs, 214

Kadavy, J. L.: Staphylococcal enterotoxin: production methods, 180
Koppisch, Enrique: Studies in bacillary dysentery.
III. Mobilization of specific antibody into the intestine of the rabbit as a response to homologous living dysentery bacilli, 281
Kraft, Mary: Studies on the in vivo fate of brucella variants with different virulence, 286
Krakauer, H. S.: The effects of bruellergen skin test on brucella agglutinin titer in patients with brucellosis and other diseases, 56

Malaria, Active immunication of birds against, 1
Passive immunization of birds against, 8
The distribution of sparing and protective factors in plasma fractions of ducks recovered from lophurae malaria, 16
The in vitro agglutination of erythrocyte-free avian plasmodia, 31
Hemagglutinin-inhibiting property of duck plasma exhibited in agglutination reactions involving duck erythrocytes and plasma of chicks recovered from lophurae malaria, 95
McCullough, Norman B.: Experimental human salmonellosis.
III. Pathogenicity of strains of *Salmonella newport, Salmonella derby,* and *Salmonella bareilly* obtained from spray-dried whole egg, 209
IV. Pathogenicity of strains of *Salmonella pullorum* obtained from spray-dried whole egg, 259
Growth and manometric studies on carbohydrate utilization of *Brucella*, 265
Mead, Dorothy D.: Studies on the in vivo fate of brucella variants with different virulence, 286
Mercer, Robert D.: The effect of pituitary adrenocorticotrophic hormone on experimental tetanus in mice, 224
Mycobacteria, Some physiological properties of nonpathogenic mycobacteria, 185

Nelson, Eric L.: The recovery of L forms of *Brucella* and their relation to brucella phage, 226
Neter, E.: The effects of brucellergen skin test on brucella agglutinin titer in patients with brucellosis and other diseases, 56
Novak, Milan: Prophylaxis of experimental diphtheria with penicillin, 193

Okabe, Kenzo: Coproagglutinins in ulcerative colitis, 47

Penicillin, The effect of, on typhoid antibody production, 169
Prophylaxis of experimental diphtheria with, 193
Phage, The recovery of L forms of *Brucella* and their relation to brucella phage, 226
Pickett, M. J.: The recovery of L forms of *Brucella* and their relation to brucella phage, 226
Pinworms, Studies of the effect of antibiotics on infections with the mouse pinworm, *Aspicularis tetraptera*.
I. The action of terramycin hydrochloride, 190
Pittman, Margaret: Influence of sex of mice on histamine sensitivity and protection against *Hemophilus pertussis*, 296
Comparison of the histamine-sensitizing property with the protective activity of pertussis vaccines for mice, 300
Plasma, The distribution of sparing and protective factors in plasma fractions of ducks recovered from lophurae malaria, 16
Hemagglutinin-inhibiting property of duck plasma exhibited in agglutination reactions involving duck erythrocytes and plasma of chicks recovered from lophurae malaria, 95
Plasmodium, The in vitro agglutination of erythrocyte-free avian plasmodia, 31
The effect of splenectomy on the course of *Plasmodium berghei* infections in *Microtus guentheri*, 130
Prather, Robert M., Jr.: Hemagglutinin-inhibiting property of duck plasma exhibited in agglutination reactions involving duck erythrocytes and plasma of chicks recovered from lophurae malaria, 95

Rachman, R.: The effects of brucellergen skin test on brucella agglutinin titer in patients with brucellosis and other diseases, 56
Radioactive antigens, Artificial radioactive antigens.
I. Preparation and evaluation of S^{35}-sulfanilic acid-azo-bovine-γ-globulin, 109
II. The metabolism of S^{35}-sulfanilic acid-azo-bovine-γ-globulin in normal and immune mice, 117
Richardson, A. P.: The in vitro agglutination of erythrocyte-free avian plasmodia, 31

Salmonellosis, Experimental human salmonellosis.
III. Pathogenicity of strains of *Salmonella newport, Salmonella derby,* and *Salmonella bareilly* obtained from spray-dried whole egg, 209
IV. Pathogenicity of strains of *Salmonella pullorum* obtained from spray-dried whole egg, 259
Schwink, Thomas M.: The distribution of sparing and protective factors in plasma fractions of ducks recovered from lophurae malaria, 16
Hemagglutinin-inhibiting property of duck plasma exhibited in agglutination reactions involving duck erythrocytes and plasma of chicks recovered from lophurae malaria, 95
Seibert, Florence B.: Antigenic differences in two tuberculin protein fractions, 252
Shigella flexneri, Field trial of *Shigella flexneri III* vaccine.
VII. Studies on asymptomatic carriers of the organism, 199
Spector, Samuel: The effect of pituitary adrenocorticotrophic hormone on experimental tetanus in mice, 224
Spink, Wesley W.: Studies in the pathology and pathogenesis of experimental brucellosis.
III. Investigations pertaining to the function of the spleen, 272
Spleen, The role of the spleen in hemolysin production in rabbits receiving multiple antigen injections, 143
Studies in the pathology and pathogenesis of experimental brucellosis.
III. Investigations pertaining to the function of the spleen, 272
Splenectomy, The effect of, on the course of *Plasmodium berghei* infections in *Microtus guentheri*, 130
Staphylococci, Staphylococcal enterotoxin: production methods, 180
Stauber, L. A.: The in vitro agglutination of erythrocyte-free avian plasmodia, 31
Surgalla, M. J.: Staphylococcal enterotoxin: production methods, 180

Taliaferro, Lucy G.: The role of the spleen in hemolysin production in rabbits receiving multiple antigen injections, 143
Taliaferro, William H.: The role of the spleen in hemolysin production in rabbits receiving multiple antigen injections, 143
Taylor, W. I.: Prophylaxis of experimental diphtheria with penicillin, 193
Terramycin, Studies of the effect of antibiotics on infections with the mouse pinworm, *Aspicularis tetraptera*.
I. The action of terramycin hydrochloride, 190
Tetanus, The effect of pituitary adrenocorticotrophic hormone on experimental tetanus in mice, 224
Thompson, Clarence G.: A granulosis of the omnivorous looper, *Sabulodes caberata* Guenée, 173
Toxins, Kinetic aspects of hemolysis by the α-toxin of *Clostridium welchii* and its inhibition by antitoxin, 233
Tuberculosis, Antigenic differences in two tuberculin protein fractions, 252
Typhoid, The effect of penicillin on typhoid antibody production, 169

Uscavage, J. P.: Prophylaxis of experimental diphtheria with penicillin, 193

Vaccine, Field trial of *Shigella flexneri III* vaccine.
VII. Studies on asymptomatic carriers of the organism, 199
Comparison of the histamine-sensitizing property with the protective activity of pertussis vaccines for mice, 300
Vollmer, Erwin P.: Ineffectiveness of cortisone therapy in mice infected with Japanese B encephalitis and the adverse effect of high dose, 103

Waife, S. O.: The effect of penicillin on typhoid antibody production, 169
Walker, H. A.: The in vitro agglutination of erythrocyte-free avian plasmodia, 31
Wells, Helen S.: Studies of the effect of antibiotics on infections with the mouse pinworm, *Aspicularis tetraptera*.
I. The action of terramycin hydrochloride, 190
Wohl, Michael G.: The effect of penicillin on typhoid antibody production, 169
Wynne, E. Staten: Antagonism by *Gaffkya tetragena* strains, 53
Studies on the mechanism of antagonism by *Aerobacter* strains, 277

Yoeli, Meir: The effect of splenectomy on the course of *Plasmodium berghei* infections in *Microtus guentheri*, 130

Zuckerman, Avivah: The effect of splenectomy on the course of *Plasmodium berghei* infections in *Microtus guentheri*, 130
